目白学園

総合案内 2024

本学園の建学の精神は学園創立者、佐藤重遠先生の示した『主・師・親』です。『主』は社会に対する貢 献を、『師』は師と共にひたむきに学ぶ姿勢を、そして『親』は家族をはじめ自分を支えてくれる人々への 感謝を表しています。目白学園は、この建学の精神に共鳴する教職員による精神共同体ともいえます。 学生・生徒は、建学の精神を深く理解し実践していくことで、絶え間なく変化する現代社会を生き抜くた めの基盤を築くことができるのです。

Professor Juen Sato, the school's founder, used the principles of "Shu," "Shi" and "Shin" to promote the spirit of this institution. "Shu" (Sovereign) expresses responsibility to society, "Shi" (Teacher) expresses an attitude of sincere learning together with the teacher and "Shin" (Parent) expresses gratitude to family and others who provide support for one's life. Mejiro Gakuen is a spiritual community founded on teachers who resonate with the spirit of this institution. Students and pupils obtaining a deep understanding and practice of this spirit will build the foundations for surviving in this incessantly changing modern society.

佐藤 重遠

宮崎県延岡市出身。東京帝国大学法科大学卒業。 1923年、私財を投じて研心学園(目白学園の前身) を創設。学校経営に情熱を傾けるかたわら、合計 4期にわたり衆議院議員として国政に携わり、大蔵常 任委員長など歴任。藍綬褒章を受賞。1964年没。 教育功労ならびに国政への功績により正五位に叙さ れ、勲三等瑞宝章を授与される。

1887-1964

Juen Sato

Born and raised in Nobeoka, Miyazaki prefecture, Juen Sato graduated from Tokyo Imperial University Law School. In 1923, he invested his own funds to found Kenshin Gakuen (predecessor to Mejiro Gakuen). Even while passionately engaged in school administration, he also found time for government service, with four terms in the House of Representatives that included service as chairman of the Standing Committee on Finance. He was also a recipient of the Blue Ribbon Medal of Honor. For outstanding achievement in education and government service, Juen Sato was conferred the Fifth Rank, and awarded the Order of the Sacred Treasure 3rd Class.

目白学園シンボルマーク

上下に伸びるオーバル(楕円)は、限りな く上昇する円をモチーフにしたもので、 宇宙、連鎖、調和、さらにバランスのと れた健全な生命などを象徴しています。 地球をイメージさせるその形状は、目白 学園の大きな特性であるグローバル性を も同時に意味しています。また三角形の 三点は、建学の精神である「主・師・親」 を表し、その三辺は教育理念である「徳・ 知・行」を暗示しています。 楕円と三角形 が創り出す、ひとつの宇宙。無限の可能 性を感じさせる美しく大胆なフォルムに よって、国際的で洗練されたスタイリング を静かに醸成します。

Symbol Mark for Mejiro Gakuen

The motif is an oval stretched in a vertical direction to represent a circle reaching upward without limit, and symbolizes space, linkage, harmony and a balanced, healthy life. It also evokes an image of the Earth, representing the global character of Meiiro Gakuen. In addition, the three points of the triangle express the three principles of "Shu," "Shi" and "Shin," while the three sides of the triangle represent the three education principles of "Virtue," "Knowledge" and "Action." The oval and triangle together create one space. This beautiful, bold form gives an impression of limitless possibilities, to quietly nurture international, refined styling.

目白学園は、1923年、目白台と呼ばれる新宿の高台に、 研心学園として創設されました。以来、100年を超える歴 史を積み重ね、とりわけこの30年ほどの間に、目白大学 を中核として成長と積極的な変革を続け、現在では、中 学、高校、短大、大学、大学院を有し、学生・生徒数約 7,000名を擁する総合教育研究機関となりました。

このうち、目白大学では、新宿およびさいたま岩槻キャンパスにおいて、それぞれ、文系、保健医療・看護領域の教育を実施しています。そして、学生一人ひとりの力を引き出し、伸ばすために、学生と教員の距離の近さを生かした本学ならではの教育力の向上に努めるとともに、社会が求める人材を育てて送り出すため、常に新たな教育領域に挑戦するなど、積極的な努力を続けています。

短期大学部は、ビジネス社会、製菓、歯科衛生の各学科 において社会のニーズや若い女性の興味・関心に応えて、 少人数教育のもと、幅広い教養と専門的な知識・技術を バランスよく備えた女性の育成に努めています。

さらに、学園創設以来の歴史を有する中学校、高等学校は、男女共学校として15年を経ました。女子校時代からの特色である英語教育やグローバル教育を充実・深化させるとともに、多様なコース・クラス制を生かした活動を展開して、活気のある校風が育っています。

学園を取り巻く社会の状況は、今後ますます変化の速度を速め、複雑化すると見込まれます。こうした中で、本学園は、学園に在籍する若者たちが、創設者の定めた建学の精神「主・師・親」、すなわち「国家・社会への主体的な貢献、自分を導いてくれる人とともに積極的に学ぶ姿勢、自分を支えてくれる人々への感謝の気持ち」を堅持しながら、これから直面する厳しい時代をしっかりと生き抜く意欲と資質能力を備えることができるよう、努力を続けてまいります。

Mejiro Gakuen was founded in 1923 as Kenshin Gakuen on an elevated location in the Shinjuku area of Tokyo known as Mejirodai. Since then, Mejiro Gakuen has continued for over 100 years, and particularly during the past 30 years or so with Mejiro University at its core, it has developed into a comprehensive educational and research institution with a junior high school, senior high school, college, university, and graduate school, serving approximately 7,000 students.

At Mejiro University, education is offered particularly focused on the humanities at the Shinjuku campus, and on the health sciences and nursing at the Saitama Iwatsuki campus. The university continues proactively working to improve its unique educational strengths to make the most of the close relationships between its students and teachers which brings out and stretches each student's capabilities, while handling challenges in new educational sectors in order to cultivate and send out the human resources society demands.

At Mejiro University College, the Departments of Business Studies, Confectionery Arts, and Dental Hygiene respond to society's needs and young women's interests, and the college uses small-group instruction to develop young women with a good balance of liberal education and specialist knowledge

and techniques. Furthermore, fifteen years have passed since Mejiro Kenshin Junior and Senior High School, which was founded at the same time as Mejiro Gakuen, became a coeducational school. It strives to enhance and deepen the English language education and global education that have been offered from when it was an all-girls school. The school is also deeply committed to developing activities utilizing the advantages of having a variety of courses and a class grouping system, and to nurturing a lively school atmosphere.

The conditions of the society surrounding Mejiro Gakuen are expected to change even more rapidly and grow increasingly complex. Under such circumstances, Mejiro Gakuen will continue its efforts so that the young people enrolled will be able to learn the unyielding spirit of the institution "Shu," "Shi," and "Shin," set forth by the founder (that is, the spirit of "Proactively contributing to the country and society, having an enthusiastic attitude towards learning, together with one's leaders, and expressing gratitude toward the people who provide support for one's life") and acquire the motivation and capability required to survive the difficult times that they will face in the future.

目白学園は、飛躍的な発展を続けながら、 確かな歴史を刻んでいきます。

目白学園は、1923年、新宿の高台に誕生した研心学園に始まります。創立者、佐藤 重遠先生が定めた「主・師・親」の建学の精神に支えられながら、中学校・高等学校・短 期大学部・大学・大学院、そして、いくつかの附属機関を有する総合教育機関へと発 展を遂げました。100年の歴史が積み重ねる良き伝統を守りながら、常に"時代の風" を読み、急速に変わる現代社会に合わせて成長を続けています。目白学園は、これ からも立ち止まらず、新たな歴史を刻んでいきます。

In the course of rapid growth, Mejiro Gakuen has carved out a solid history.

Mejiro Gakuen got its start in 1923 as Kenshin Gakuen on an elevated location in Shinjuku. Supported by the principles of "Shu," "Shi" and "Shin" set as the spirit of the institution by the founder, Professor Juen Sato, the school has developed into a comprehensive educational institution with a junior high school, senior high school, junior college, university, and graduate school, as well as a number of affiliate institutions. Even while maintaining the excellent traditions accumulated over 100 years of history, the school is constantly reading the latest trends to ensure continued growth in concert with a rapidly changing modern society. Never an institution to stand still, Mejiro Gakuen is even now forging ahead to carve out a new history.

Mejiro University was established in 1994 as the fourth institution of learning in the Mejiro Gakuen Educational Foundation. Since that time, it has undergone rapid growth and bold changes and has evolved into a comprehensive university featuring eight faculties and 17 departments*, as well as a graduate school composed of seven research schools. The university has two campuses, the "humanities-oriented Shinjuku campus" and the "health science and nursing-oriented Saitama Iwatsuki campus," each of which provides a distinctive education. With a constant grasp on the needs of the times and striving to "educate and send out" people which the world needs, Mejiro University continues to press forward.

* Faculty of Human Sciences, Department of Psychological Counseling is no longer accepting applicants for admission from 2020 academic year and will be reorganized as Faculty of Psychology, Department of Psychological Counseling.

人間福祉学科

社会福祉とは、社会に生きるすべての人の幸福を追求することです。そのため社会福祉サービスに携わる者には、人間一人ひとりに対する深い理解が欠かせません。人間福祉学科では、社会と人間、社会のあり方について考えることを重視し、豊かな人間性とバランス感覚を養い現代福祉の課題に取り組む人材を育成するための教育を展開しています。また、社会福祉現場での知識と専門スキルを持つ教員による指導が行われ、即戦力となる社会福祉士・精神保健福祉士・介護福祉士を養成しています。社会福祉サービスを必要とする方の、尊厳を守る「福祉マインド」を持った学生を育成するため、実習や研修を充実させています。

Faculty of Psychology

Shinjuku Campus

Department of Psychological Counseling

The Department offers a curriculum that covers wide aspects of psychology, including educational, developmental, social, experimental and clinical psychology; students study psychology that can be put to good use in society. With the theme of "Going forward with psychology," the curriculum emphasizes projectbased learning through experiential classes, seminars and practical training courses; the Department trains "experts of the mind" who are able to play an active role not only as professional certified psychologists but in a wide range of fields including business. Three course models are available in line with students' desired career paths; the "Clinical Psychology Model" leading to the nationally-recognized qualification of certified physiologist; the "Interpersonal Psychology Model" in which students learn different ways of providing emotional support, and the "Applied Psychology Model" in which students study a wide range of disciplines starting from the basics, enabling students to choose the study content that matches their interests.

Faculty of Human Sciences

Shinjuku Campus

Department of Social Welfare Services

Social welfare is the concept of pursuing happiness for every person living in society. Therefore, people who are engaged in social welfare services must have a deep understanding of each individual person. In the Department of Social Welfare Services, emphasis is placed on the consideration of society and people, and on how society works. Education is focused on the fostering of a rich humanity and sense of balance, and the development of human resources to tackle the challenges of modern welfare. In addition, guidance is provided by teaching staff with specialist skills and practical knowledge of social welfare to train social workers, mental health welfare specialists and care workers who will be an immediate asset in the workplace. Extensive practical training develops a "welfare mindset" to preserve the dignity of people who require social welfare services.

Department of Social Information

The issues faced by contemporary society have come about as a result of the complex interactions between information and the human psyche. A multifaceted and flexible perspective is essential for those who seek to come up with actions to address these issues. The Department of Social Information is committed to seeing learners equip themselves with "the capability to discern information," "the capability to understand a person's psychology," and "the capability to make the best use of it in the real world and life." Individuals are encouraged to develop the true ability to forge their own future and path forward in an autonomous manner. The department uses a "unit-based" curriculum that enables students to learn from a broad range of academic fields based on the pillars of "social information," "social psychology," and "networks." The interests and needs of each and every student are met through the flexible combining of subject groups in diverse academic fields such as study of living culture, social design, social psychology, communication, marketing brand.

Department of Nursing

Nursing is a specialization that seeks to support specific health issues as well as maintain and improve the health of all people, families and communities. The department offers a curriculum consisting of courses in the five disciplines required for professional nursing staff: "understanding of people," "social cooperation," "basics of nursing," "nursing practice" and "integrated nursing," so that students study in stages while acquiring knowledge in theory and practice. Practical clinical study is conducted in each year of the curriculum so that students repeatedly face actual situations in practice. This develops the sensitivity and mentality necessary for supporting others, and it improves and consolidates their practical nursing skills. We aim to educate people who can foster happiness in others by promoting high aspirations and a sense of mission for serving others, imparting the ethical philosophy required in nursing to preserve life and dignity while placing themselves in the other person's shoes, and training in integrated practical skills to enable our graduates to independently perceive and resolve issues.

Mejiro University College which was established in 1963, has always used small-group education to develop young women with a good balance of well-rounded education combined with specialist knowledge and techniques, to prepare them to be active contributors to society. The college also puts effort into linking education directly to the acquisition of qualifications and experience, using diverse learning situations suited to each student's interests. A unique feature of the college is its flexible curriculum which allows students to select subjects beyond the department or field of study. The college offers students support for growth and broadening possibilities while acquiring three strengths necessary for them to live in the coming era: the strength to continue lifelong learning, the strength to put skills into practice, and the strength to serve society.

学長挨拶 Message from the University College President

60年の伝統を有する目白大学短期大学部は、「幅広く 深い教養並びに高度の専門の学芸を授け、優れた見識 と職業又は実際生活に必要な能力を備えた女性を育成 する」ことを目的とし、学生により添った教育を続けて います。多くの優秀な同窓生に支えられて、今後も時 代の流れに柔軟に対応できる、学生と共に成長する学 び舎でありたいと思います。

With a tradition extending back 60 years, Mejiro University College educates students with the aim of "providing a broad, in-depth education along with highly specialized knowledge and skills, and equipping women with outstanding insight and the skills necessary for work and real life." I want the college to be a place of learning where we continue to grow along with the students who, with the support of many talented alumni, develop the ability to respond flexibly to the changing times.

製菓学科

短期大学としては国内初の設置である製菓学科は、洋菓子・和菓子・パン3つの専門分野を並行して学び、技術と知識を修得します。基礎から応用へと段階的なカリキュラムを組み、プロ仕様の設備を使って製菓技術を習得し、その文化や歴史的背景も学びます。さらに食品衛生学やラッピング技術、接客マナーなどを学ぶほか、コミュニケーション能力の養成も重視し、製菓業界で求められている人材の育成に力を注いでいます。授業としてのインターンシップ参加、保健所の営業許可の下で実施する学内販売実習など、就職を意識した学びも特徴のひとつです。また、国家資格の取得を目的とした「製菓衛生師コース」では、安全性や衛生面の管理への知識を身につけ、在学中の製菓衛生師試験合格を目指します。将来は、パティシエールや製パン技術者(ブーランジェ)はもちろん、食品関連企業などで幅広い活躍が期待できます。

Department of Confectionery Arts

At the Department of Confectionery Arts, the first of its kind to be established at a junior college in Japan, students acquire skills and knowledge by studying in parallel three areas of expertise, that is, Western and Japanese confectionery and breadmaking. The curriculum progresses step-by-step from the basics to applied techniques; students master confectionery techniques using professional equipment and also learn the cultural and historical background of confectionery-making. In addition to the study of food hygiene, wrapping techniques, customer service etiquette, etc, emphasis is placed on the development of communication skills, and the focus is on training the human resources required by the confectionery industry. One feature of the curriculum is learning that leads to employment; for example, internship participation as part of the class, on-campus sales training carried out with the permission of the public health center. On the Confectionery Hygiene Master Course the goal of which is the acquisition of national certification, students gain knowledge of confectionery safety and hygiene management with the aim of passing the Confectionery Hygiene Master Examination before graduation. After graduation students can expect to be active in a wide range of fields; as patissiers and master bakers (boulangers) of course, but also in food-related industries.

Research Institute for Higher Education

This institute, which originally focused on women's education, was established in 1967 as the Mejiro Gakuen Research Institute for Women's Education, which then changed its name to the Research Institute for Education in 2006. Recently, the institute has focused on contemporary issues, regardless of gender, and has engaged in empirical and practical research that offers solutions to various problems, especially within higher education. In 2020, the institute became the Research Institute of Education, with the aim of expanding the functions of higher education. Reorganized into two departments (a Research Department, Faculty Development (FD) Department and an Institutional Research (IR) Department), the institute can now more flexibly wrestle with the increasingly complex issues that surround higher education in order to further advance research in the field.

Hallmarks of Mejiro Kenshin Education

In an effort to assist students in the pursuit of their studies outside of class, the Study-Support Center has programs tailored to each student's level of academic achievement and educational needs, ranging from mastering fundamental skills to preparing for entrance exams of highlyselective universities. The Center has added more study booths and offers extended support hours until 8 p.m. The Super English Course (SEC) established in 2014 is designed to develop global human resources. With the establishment of two tracks, the traditional course and SEC, our aim is to further enhance the academic guidance offered to our students

Seven native English-speakers are on staff to ensure that the particularly strong emphasis on English education is met in all courses. Students will be equipped with the tool of English proficiency so that they may pursue their careers as full-fledged members of the international community. The institute also has a thriving study abroad program with sister school agreements with 20 schools in six countries. Many of our students go abroad to study, and many students from other countries also come to study at Mejiro Kenshin Junior and Senior High School.

環境にやさしいキャンパス

40

「森の学園」と呼ばれる新宿キャンパスは、都心にありながらも豊かな緑に囲まれています。敷地内の樹木は3,000本余りにのぼり、定期的な除草・剪定・施肥により大切に守られています。草木への配慮から、主な通路や広場には透水性インターロッキングを採用し、10号館の屋上を緑化するなど、キャンパス全体の植栽管理と緑化推進に努めています。一方、広大な敷地を持つさいたま岩槻キャンパスもキャンパス全体が緑の中にあり、その恵まれた環境をかけがえのない大切な財産と考えています。教育機関として、自らが環境対策に積極的であるべきと考える本学園では、省エネ対策として、ソーラーシステム、ヒートポンプ式給湯器および高効率型空調機を採用し、氷蓄熱システムおよびナイトパージにより、効率的な環境負荷低減に取り組んでいます。また限られた資源を大切にするために、各種印刷、コピー、トイレットペーパーなどは再生紙を使用し、ごみの分別を通じて3Rとリサイクル対策も展開しています。さらに地球温暖化の防止に役立つLED照明や人感センサーの設置、その他、UVカット窓ガラスやLow-E複層ガラスの導入など、各種エコロジープランを掲げ、より積極的に実践しています。

To alleviate the heat island phenomenon, greenery has been added to the rooftop of Building No.10 as part of cooperation with

太陽光発電ソーラーシステム ■ Solar cell power generation system

環境との共生を目指して設置。屋上には約500枚のソーラーパネルが並んでいます。

About 500 solar panels have been installed on the rooftops of the Iwatsuki Campus. Toward the goal of coexistence with the environment.

氷蓄熱システム ■ Ice thermal storage system

夜間電力を利用して、夏は氷、冬は温水を蓄熱槽に熱 エネルギーとして蓄え、昼間の冷暖房に利用します。

Using nighttime power, this system stores ice in the summer and warm water in the winter as heat energy in thermal storage tanks to be used for heating and cooling during the daytime.

Environment-Friendly Campus

The Shinjuku Campus, long known as the "school in the forest" is, despite its central metropolitan location, surrounded by greenery. There are over 3,000 trees within the campus, and these are carefully protected through regular weeding, pruning and fertilizing. Efforts are made to manage planting and promote greening throughout the campus; out of consideration for the plants and trees, major walkways and plazas are paved with water-permeable interlocking blocks, and the rooftop of Building No. 10 has been planted with greenery. At the same time, the entire spacious Saitama Iwatsuki Campus is enfolded in greenery, and Mejiro University considers this blessed environment to be an important and irreplaceable asset. As an educational institution with a responsibility to be proactive in the promotion of environmental measures, Mejiro Gakuen has implemented such energy-saving policies as the adoption of solar cell systems, heat pump-type water heaters and high-efficiency air conditioning equipment, and is working to reduce its environmental impact efficiently by means of ice thermal storage and night-purging systems. Further, in order to make careful use of limited resources, recycled paper is used for printed materials, copies, toilet paper, etc., and by means of waste separation we are also making progress in the 3Rs and in recycling measures. We have also adopted various ecology plans that we are implementing more proactively, such as the installation of LED lighting and motion sensors to help prevent global warming, as well as the adoption of UV-blocking window glass and Low-E double glazing.

豊かな緑 ■ Rich greenery

緑豊かな環境に恵まれた新宿キャンパスには、3,000本を超える樹木が生育しています。

The Shinjuku Campus is blessed with a luxuriantly green environment. More than 3,000 trees and shrubs are grown here.

透水性インターロッキング ■ Permeable interlocking

Walkways with permeable interlocking concrete through the Gakuen campus are utilized to return rainwater to the soil.

高効率型空調機 ■ High efficiency air conditioner

新宿キャンパスとさいたま岩槻キャンパスの空調・ 照明機器を高効率型に更新しました。

The air-conditioning and lighting equipment at the Shinjuku Campus and Saitama Iwatsuki Campus have been upgraded to high-efficiency models.

中水道システム ■ Recycled water system

一部の校舎に中水道システムを導入し、水使用量を 削減するよう努めています。

Recycled water systems have been introduced to some campus buildings as part of efforts to reduce water use volumes.
